

HOW TO STAY SAFE IN A PARKING LOT

Get in the car with care.

Use the same side of the car as the driver, if possible.

Stay by the side of an adult at all times.

Adults are more visible than children.

Walk, don't run, through parking lots.

When you run, it's harder for drivers to see you and for you to see them.

Remain still if you drop something.

Ask an adult to pick it up for you. Only pick it up yourself if an adult says it's OK.

Pay attention when you exit the car.

Try to use the same side of the car as the driver. If you can't, wait for the driver to tell you it's safe to exit the car.
